About Me

I am an ambitious and driven engineering student with a strong foundation in Python, full-stack development, and video editing. My diverse skill set allows me to approach challenges from multiple angles, combining technical expertise with a creative mindset. I am proficient in both Telugu and English, and I am actively learning Hindi to expand my communication abilities and connect with a broader range of people.

WORK EXPERIENCE

March 20-2025 - April 20-2025
Unified Mentor

Full Stack Web Developer

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Implemented interactive UI features and animations with vanilla JavaScript.

PROJECTS

1.Music Player Web App
Built a stylish single-page music player using HTML, CSS, and JavaScript with playlist support and audio controls.

2. Catering Reservation & Ordering System
Developed a responsive catering website with menu browsing, table reservation, and order placement features.

3. Supermarket Web Application
Created a functional online supermarket UI with product filtering, cart system, and quantity controls using JavaScript.

4. Chat Application (Frontend Only)
Designed a chat interface with user interactions, message animations, and local message storage using HTML, CSS, and JS.
